Eppa Akshith Reddy	21E41A05A2	9390535850
Saleh Jemal Ibrahim	21E41A05E3	7396963821

Supervisor : DR. S Venkata Achuta Rao

Title of the Project : DEVELOPING A EDUCATIONAL QUIZ USING WEB APPLICATION

Domain of the Project : WEB APPLICATION

Abstract:

Designing a web quiz for learning involves creating an interactive platform that engages users in educational activities through quizzes. The system would allow users to test their knowledge on various subjects or topics, receive immediate feedback, and track their progress. The web quiz would include multiple-choice questions, true/false, and fill-in-the-blank formats for variety. It would store user answers in a database and adjust future quizzes based on previous performance. The interface should be simple and intuitive, ensuring an enjoyable experience. Users can view detailed explanations for answers, enhancing learning. The backend would manage quiz data using a SQL database, while the frontend would be responsive for accessibility on any device.
